WORKSHOP

We invite you to participate in an enriching workshop designed to elevate your concepts to the next level. This session offers a unique platform for participants to present their ideas and engage with a team of specialists. Our experts will provide interactive feedback and guidance, assisting you in transforming your initial ideas into well-structured, formal projects. Through collaborative discussions and practical support, you will refine your vision and acquire valuable insights to advance your projects.

**Seize this opportunity to translate your creativity into actionable plans.**

1 We discuss the project

2 Finding partners for the project

3 Starting point
How do I write a project?

4 How to get funding information
